

Arthur Kubiak

Seeking Internship in Software Development

ABOUT ME

Currently in my last year of engineering school, specializing in computer science, I'm looking for an internship abroad from February to July in software development as part of my final year project. It aims to apply and expand my knowledge while validating my last year of studies.

WORK EXPERIENCES

12-02/2024
Remote-France

Lacour Law Firm,

Intern as full stack web developer

Designed and developed a web application for scheduling appointments for negotiations.
